

COMPLAINT

SECONDARY COMPLAINT

Delayed engagement

- Replacement F-clutch bushing not available

CAUSE

Sealing ring leaks forward clutch oil.

CORRECTION

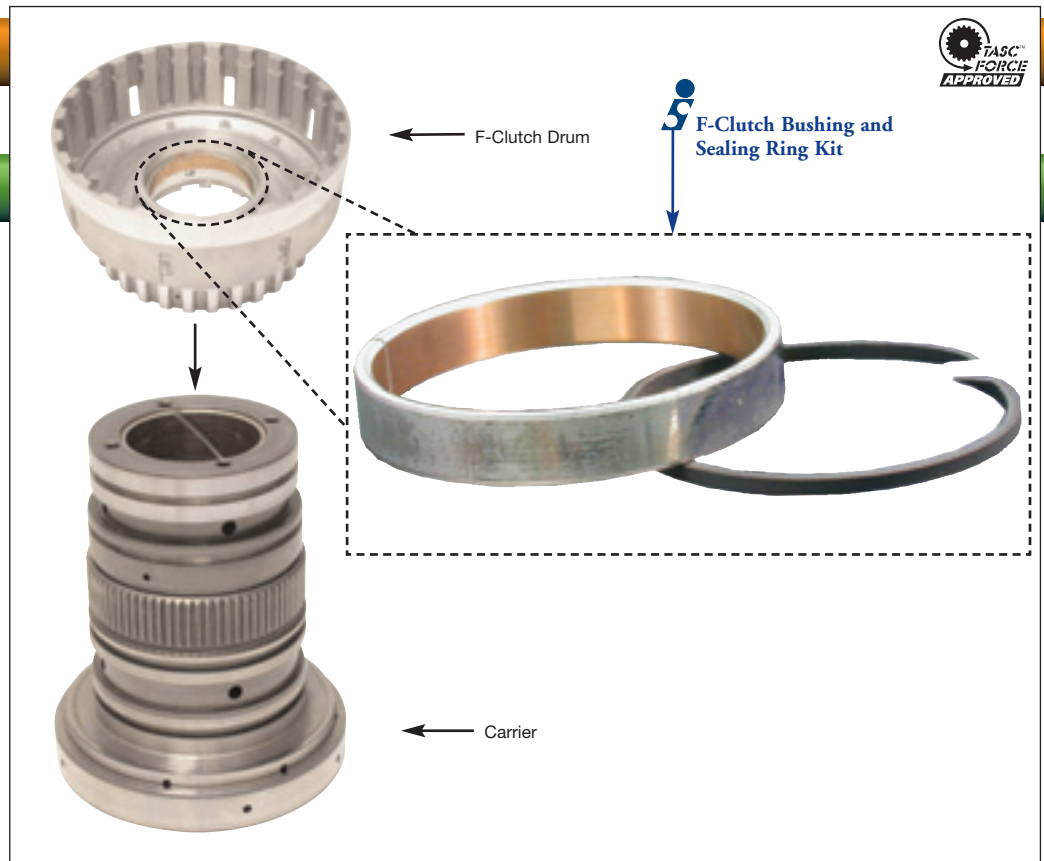

The Sonnax steel-backed bushing and sealing ring restore forward clutch oil pressure.

F-Clutch Drum Bushing & Sealing Ring Kit

85110-01K

1 Sealing Ring
1 Bushing

Note: Fits early bushing-style ZF5HP19.

Sonnax Part Summary

The OEM sealing ring cuts a groove into the F-Clutch drum bushing and reduces the sealing ability of the seal and bushing.

Features & Benefits

- Bushing and sealing ring now available separately, enabling salvage of drum.
- Steel-backed bronze bushing is OEM equivalent.
- Kit restores hydraulic integrity to clutch circuit, preventing loss of forward clutch oil.
