

41TES

Upper Housing

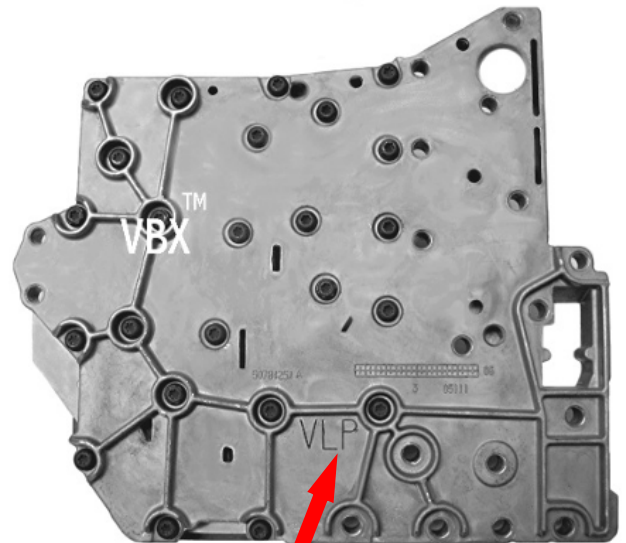

Lower Housing

VLP Casting

Pressure Sensor

Pressure Solenoid

VLP Casting

This valve body can be identified by the letters “VLP” cast into both the Upper and Lower Housing (see **RED ARROWS**), as well as the addition of a pressure sensor (see **BLUE ARROW**) and pressure solenoid (see **GREEN ARROW**).

From the outside of the transmission, you can identify the VLP style by looking for an additional 6 pin electrical connector located next to the range sensor connector.
