

AX4S (Blue Lock-Up)

Beginning in 1997 with Lincoln & 1998 with most other models, the AX4S contains a BLUE LOCK UP SOLENOID!

The Blue Lock Up Solenoid has approximately 14 Ohms of resistance, as opposed to 3 Ohms of resistance on the Lock Up Solenoids of earlier units. We strongly recommend checking the color of ALL Lock-Up Solenoids from 1997 & up before ordering! See **RED ARROW** above for location of Solenoid.

Valve Body will have an F4 Casting Number ON THE VALVE BODY - NOT THE PUMP!
See **GREEN ARROW** above for location of F4 Casting Number.
