AW55-50 Worn Valves & Sleeves

AW55-50 Guaranteed Remanufactured Valve Bodies by **VBX** include:

Valves & sleeves shown above are upgraded replacements.

We seal leaking end plugs and flat sand the valve body to eliminate cross leaks.

Known wear areas that don't have a fix are vacuum tested to weed out worn valve bodies.

We flush and test all of the shift solenoids.

We rebuild and recalibrate the SLS, SLT & TCC (Linear) Solenoids.

We fully test the valve body to assure proper operation and offer full product support, including technical information on our website.

As with all of our valve bodies, our AW55-50SN products are 100% GUARANTEED!

"We Build Them So You Don't Have To."
