1.76:1 Ratio Carrier Pinion Pin Kit

Part No.

28435-01K

6 Pinion pins
1 Retainer plate
3 Screws

GM POWERGLIDE

Part Summary:

Sonnax now offers this simple but effective pinion pin and retainer set for the 1.76:1 ratio carrier. This kit can be used with any gear ratio that can be installed in a 1.76 carrier. Many aftermarket carriers are already drilled for the retaining screws, and the kit can be easily installed on other carriers.
