

POWERGLIDE BAND ADJUSTMENT SCREW

H I G H P E R F O R M A N C E T R A N S M I S S I O N P A R T S

BENEFITS:

- Made from hardened, tempered alloy steel
- Prevents band slippage/case breakage
- For use with OEM or aftermarket cases
- Features stock thread length
- Zinc-plated to prevent corrosion

Part No.

28612-01K

1 Band Adjustment Screw

PART SUMMARY

OEM Powerglide band adjustment screws can deflect or bend, causing band slippage or even transmission case breakage. The Sonnax Powerglide band adjustment screw **28612-01K** is made from high-strength, hardened and tempered alloy steel to prevent these problems. This band adjustment screw is designed for use with OEM or aftermarket cases, features stock thread length and is zinc-plated to prevent corrosion.
