Part No.

28711-01K

*1 Kit of 14 Hexhead Nuts
& Double-ended Studs*

PART SUMMARY

Stock GM Powerglide cases have become more difficult to find and aftermarket cases are expensive. On race applications, where routine maintenance happens frequently, the bolt holes can become worn or damaged. This kit **28711-01K** includes studs and nuts to prevent damage to the Powerglide cases. This kit will work with stock steel oil pans and aftermarket aluminum oil pans.
