

REPLACEMENT STATOR SUPPORT BUSHING KIT

Features & Benefits:

- Wider rear stator bushing
- Two front bushing options for early and late shafts

Part No.

77918SBK

1 Rear bushing

1 Early front bushing

1 Late front bushing

Part No.

77002B

1 Rear bushing

Part No.

35007A

1 Late front bushing

Part No.

35007B

1 Early front bushing

PART SUMMARY

The Sonnax stator support bushing kit **77918SBK** allows technicians to service either Sonnax or OEM stator supports shafts. The rear bushing is wider to provide more support.

<i>Sonnax No.</i>	<i>Description</i>	<i>Application</i>
35007A	Thin wall (1.004" I.D.)	1984 late to current (large input shaft)
35007B	Thick wall (.908" I.D.)	1982-84 (early small shaft diameter)
77002B	Wide (.510" wide)	1995 to current (common to PWM/TCC)
