

Features & Benefits:

- Replacement bearing with integral seal prevents leakage from the pump, eliminating converter codes triggered by leakage into the valve body circuits
- Allows use of the OEM seal with Sonnax bearing for additional sealing capabilities

Part No.

96855-01K

1 Bearing w/ Integral Seal

PART SUMMARY

Vehicles with AXOD & E, AX4S & (pre-2000) AX4N transmissions often have oil leakage between the pump and valve body circuits resulting in converter codes, caused by a worn or failed pump shaft bearing and seal. Sonnax now offers a replacement pump bearing with integral seal, **96855-01K**.
