#### AL-N-1 is:

Item Numbers 4 & 5 for Allison 1000/2000/2400 Series on page 40.

Sonnax now offers **AL-N-1**, a high-quality, fully enclosed needle bearing. **AL-N-1** is a direct replacement for the impeller side bearing in late-model 2006-up units. The **AL-N-1** bearing, used in combination with the **AL-WA-2** stator cap/bearing adapter and a modified **AL-90-2G** or OEM impeller hub, can be retrofitted into units manufactured earlier than 2006. Sonnax also offers **AL-90-3G**, a modified version impeller hub that eliminates the need for any modification when converting early-model impeller side bearings.
