

VBX-ValveBody **Xpress**™

4R100

We stock 2 different types of 4R100 Valve Bodies. Each model varies, depending upon casting numbers located on the Main Valve Body and the Accumulator Body. (Please See **RED ARROWS** above for location of casting numbers.)

An F6 casting number will appear on both the Main Valve Body and on the Accumulator Body for valve bodies **WITHOUT** the PTO Option.

An F8 casting number will appear on both the Main Valve Body and on the Accumulator Body for valve bodies **WITH** the PTO Option.

PLEASE OBTAIN CORRECT CASTING NUMBERS BEFORE ORDERING!

★ A 4R100 will only have 4 check balls located between the Sub Valve Body and the Main Valve Body. If it has 5 check balls, it is an E40D!
